

For more info on CAL Isuzu, check out calisuzu.co.nz

CAL Isuzu is a Hamilton-based industry leader in new and used trucks, modifying hundreds of heavy vehicles each year to meet customer demand.

With the latest models and access to the newest technology, the CAL Isuzu team is stoked when the alarm goes off in the morning because they love what they do.

They get a kick out of working with new technology, making modifications and performing maintenance to keep their customers on the road.

If you want to drive your career forward with CAL Isuzu, they'll give you opportunities to do just that. They know that every team member has something unique to contribute, and they are always looking for motivated people to join the following teams:

- Mechanical
- Electrical
- Fabrication
- Parts
- Finance and Administration
- Sales and Management

Useful School Subjects

- Maths
- Workshop and practical subjects
- Automotive

CHRIS VEBESKY
AUTOMOTIVE ENGINEER APPRENTICE

The FutureForce® Crew sat down with Chris to chat about his role...

The FutureForce® Team sat down with Automotive Engineering Apprentice Chris Vebesky, former Hillcrest High School student, to talk about his career and what makes him tick!

HOW DID YOU GET STARTED IN WORK?

My friend was doing an apprenticeship here and mentioned that the engineering department at CAL was looking for apprentices. My dad and my grandfather are engineers and so I've always been interested in engineering. I came in for an interview and got the job! I've been here for 4 years now.

WHAT HAVE YOU LEARNT ON THE JOB SO FAR?

Everything I do on a daily basis! I use skills like welding and practical maths every day.

TOP CAREER TIP

TRY LOTS OF DIFFERENT THINGS TO FIND WHAT YOU LIKE. DO YOUR BEST TO GET YOUR FOOT IN THE DOOR, BY GETTING WORK EXPERIENCE AND TALKING TO FRIENDS, FAMILY AND EMPLOYERS TO SEE WHAT OPPORTUNITIES MIGHT BE OUT THERE.

WHAT ARE SOME HIGHLIGHTS OF YOUR JOB?

Things are constantly changing so you're never doing the same thing twice. It keeps the job interesting! It could be a new build, you could be doing repairs, you could be making parts... there's a lot of variety.

WHAT ARE YOUR FUTURE CAREER AMBITIONS?

I'd love to build spaceships!

CHRIS VEBESKY
AUTOMOTIVE ENGINEER APPRENTICE

JOINING CAL MEANS...

- A Team that feels like family
- A place to spend your days doing what you love
- Many opportunities for learning and advancement

A DAY IN THE LIFE

6.00AM

Arrive at work and get a cup of coffee! I clock in and check in with my 2IC (second in command) to find out the day's tasks.

6.30AM

On the tools. I could be solving problems, doing repairs, making parts or building something from scratch.

10.00AM

Stop for a break and catch up with the boys

10.30AM

Continue the tasks for the day

1.00PM

Lunchtime

4.30PM

At the end of the day, I fill out a job task sheet with my hours, what I worked on and if we had any surprises or things we didn't expect on the job.

5.00PM

Clean out the bay, sweep up and head home!
